

Energy Optimization — Photovoltaic Site Survey Checklist

Project Information

1. Building Specifications

1.1 Basic Dimensions

- Building area (m²): _____
- Coordinates (lat/lng): _____
- Elevation (m): _____
- Number of floors: _____
- Building orientation (sun-facing direction): _____
- Year built / time in use: _____
- Site usage / ownership type: _____

1.2 Roof Type

■ Concrete roof

- Length × Width × Height (m): _____
- Parapet wall height (m): _____
- Staircase opening height (m): _____
- Staircase opening L × W (m): _____
- Roof pitch / slope: _____
- Water leakage condition: _____
- Repairs, contamination, or equipment on roof? _____
- Skylight area: _____
- Obstacle dimensions (L×W×H): _____

■ Metal sheet roof

- Sheet profile: ■ Standing seam ■ Angle brace ■ Trapezoidal
- Roof pitch: _____
- Beam specification: _____
- Beam span (m): _____
- Purlin specification: _____
- Purlin span (m): _____
- Column specification: _____
- Purlin rust condition: _____
- Roof surface rust condition: _____
- Roof leakage: _____
- Translucent panels? ■ Yes ■ No

- Drawing vs. actual roof match? _____

1.3 Obstruction Details

- Obstruction 1: L_____ × W_____ × H_____ (m)
- Obstruction 2: L_____ × W_____ × H_____ (m)
- Obstruction 3: L_____ × W_____ × H_____ (m)

1.4 Solar Panel Installation

- Rail spacing (mm): _____
- Additional parapet wall height (m): _____
- PV system height (m): _____

2. Electrical Infrastructure

2.1 Grid Connection

- **Type:** ■ Low-voltage ■ High-voltage
- Number of transformers: _____
- Transformer capacity (kVA): _____

2.2 Distribution Room

- Distribution room photo taken? ■ Yes ■ No
- Space for PV grid cabinet? ■ Yes ■ No
- Cable trench available? ■ Yes ■ No
- Spare access point? ■ Yes ■ No
- AC cable requires road crossing? ■ Yes ■ No

2.3 Generation Mode

- ■ Full grid export
- ■ Self-consumption with surplus export
- ■ Other: _____

3. Monthly Electricity Consumption (kWh)

Annual total: _____ kWh

4. Owner Documentation

- Property ownership certificate

- Building construction drawings
- Land use certificate
- CAD files
- Paper drawings
- PDF documents
- Other: _____

5. Survey Key Points

1. [] Concrete roof: repairs, contamination, equipment, light strips, obstacles, parapet height
2. [] Metal roof: rail spacing, sheet profile, drawing vs. reality
3. [] Electrical room: cable trench, client internal drawing requirements
4. [] Structural: column, beam, purlin specs and spans
5. [] Drone: clear roof images + full rooftop video
6. [] Distribution room: photograph location

6. Sign-off
